

# Integrated Control Box JCB35M3

Data sheet

## JCB35M3

- JCB35M3, with breakthrough and innovative design, is integrated with handset. The operation of column's lifting can be realized without external handset.
- From an environmental view, the JCB35M1 is a good choice with extremely low power consumption in standby mode: only 0.1W. The Anti-Collision function protects body and objects from being squeezed or collided during the lifting.
- Compatible with JC35TS-TH frame, suitable for both home and office.

---

### Features

- Can be connected to 2 column(compatible with JC35TS-TH frame)
- Color: black
- Shell material: Black highlight
- Protection against overload
- Protection against overheat
- Protection against short circuit
- Designed with a soft start/stop function
- Power off memory

## Option

- 2.4G wireless receiver box, remote control
- Bluetooth receiver box, controlled by mobile phone

## Usages

- Duty cycle: 2/18; 2 minutes continuous use followed by 18 minutes not in use
- Usage environment: Indoor
- Ambient temperature: -25°C ~70°C

---

## Technical specifications

- input voltage: DC22V-32V
- output voltage: DC18V-33V
- output power: 24V/6A
- Low standby power consumption: 0.1W
- size: 114.73×98.16×32.3
- weight: 0.1KG

## Dimensions
