

JCHT35K51

A series of handset

Data sheet

JCHT35K51 A/C

JCHT35K51A

JCHT35K51C

- JCHT35K51 is a fashionable handset. Its surface is etched with lines and feels delicate. The raised and recessed buttons form a sharp contrast, and also distinguish the ascending and descending functions, which is ergonomic. It can be used with a standing desk in the office or home environment, and the height of the desk can be adjusted with a simple press.

JCHT35K51 has the following two styles:

JCHT35K51A: Up&Down Buttons

JCHT35K51C: Up&Down Buttons, OLED Display, Memory Function, Sedentary Reminder

Features

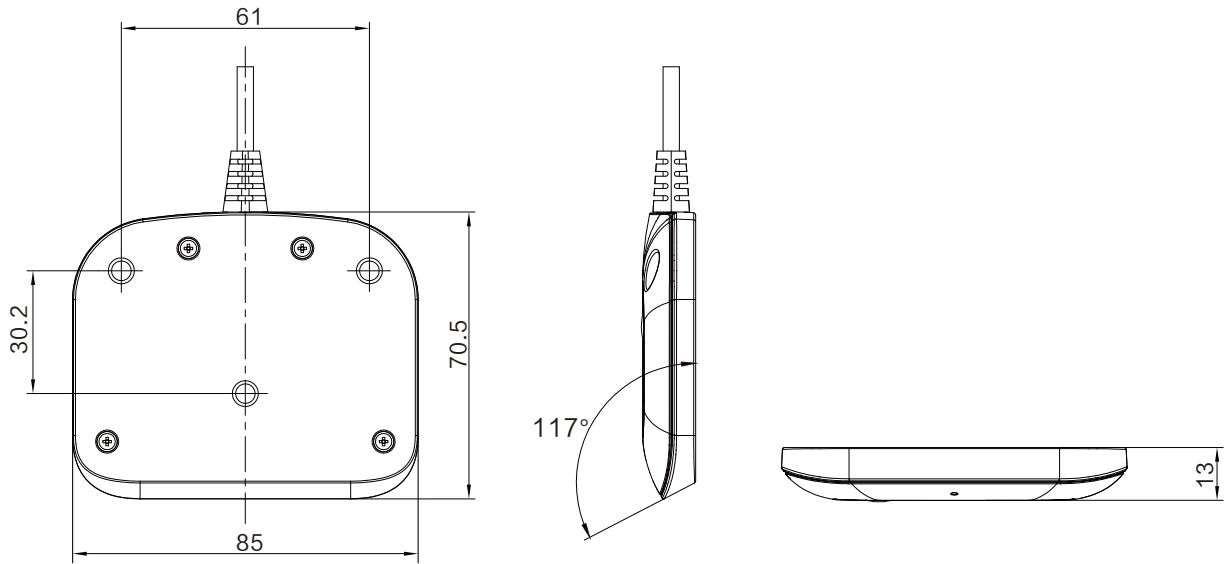

- Simulate the operation of the mouse
- Dynamic interaction
- The raised button means to the up, and the depression of the button means to the down

Usages

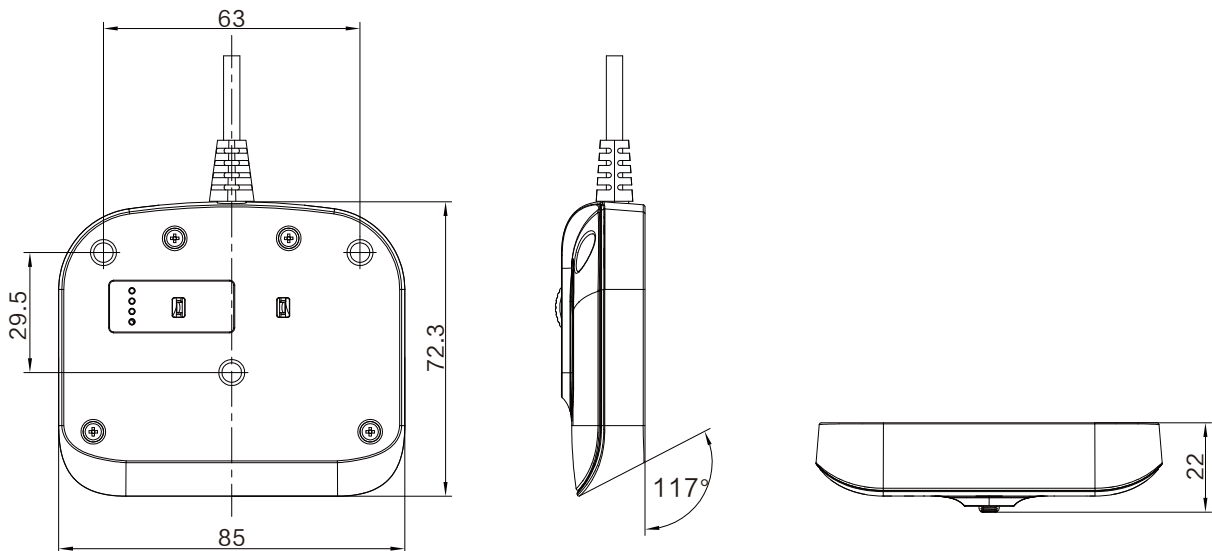

- Fit with control box: JCB35N, JCB35NS, JCB35M, JCB35NH series control boxes
- Working environment: Indoor
- Storage and transport temperature: -25°C+ 70°C
